Activation Keys are required to use our Apps. Each App requires its own unique Activation Key to be purchased.

Trial Keys : these are valid for 14 days starting from the moment you register (GMT).At the conclusion of the trial period you will need to acquire a non expiring paid key in order to continue using the App.

Non Expiring Paid Keys : you only need to acquire a key once and it will work in perpetuity for all current and future versions of the App.

Activation Keys are installed and run entirely locally when you configure your App setup. There are no network callbacks to the BaboonBones servers of any kind performed by the Activation Key framework.

Activation Keys may be used by:
